

PRESENTING:

Climate Change:

Past, Present, and Future - Tense!

a review of the causes of climate change and how human-caused changes are likely to transform the global climate for coming decades...

For the kids:

Bill Nye - Science Guy's Pollution Solutions / Archaeology

THURSDAY JUNE 7, 2007

7:30PM

STONEWALL QUARRY PARK INTERPRETIVE CENTRE

Please join REACT & the Town of Stonewall
in welcoming

Dr. Danny Blair

for an evening that promises to be enlightening,
entertaining, and is sure to stimulate thought &
ideas about the biggest threat currently facing our global community.

Dr. Blair will share his passion and knowledge about climate change
through his dynamic slide show and informative talk.

Be sure to take advantage of this excellent opportunity to help make
ours a climate-friendly community .

ABOUT DR. DANNY BLAIR, PH.D.:

Dr. Blair is the PARC-MB Hydro Climate Change Research Professor in the
Department of Geography at the University of Winnipeg. Dr. Blair's teaching
portfolio includes a variety of courses related to climatology, climate change,
meteorology, and natural hazards. His research program is largely concerned
with climate variability and climate change affecting the Canadian Prairie
Provinces.
